AUGUST 11, 2017

Last week's speaker (8/4/2017),Melissa began by describing the work done at GBPI, a non-partisan, non-profit organization, founded in 2004. They produce research and state budget analyses to show ways Georgia can provide better education, health care and opportunity for everyone. Their vision is of a state in which economic opportunity and well-being are shared among all.

This week's speaker was our very Bailey Webb, Graphic Design Coordinator of Steam Reality.
